Subject: Important: Ex. 6 - Personal Privacy Dimock PA, need their results for EPA

Dr Darrah
PhD Medical Geology
Univ of Rochester

Dear Dr Tom Darrah,

As you know, Ex. 6 - Personal Privacy Carter are Carter Rd residents in your water well study addressing shale gas extraction. You sampled their water well in early November 2011 and have that first set of results completed. I spoke with Ex. 6 - Personal Privacy last night and she believes they are not on the consent order list the EPA is using to identify homeowners to visit to consider testing water wells and providing alternate water supplies based upon available current data. The Ex. 6 - Personal Privacy want to share their Univ of Rochester results from early November 2011 that you have completed. Ex. 6 - Personal Privacy told me she just had a hysterectomy due to early stage cancer, they have high barium and other metals in their well water, her heart rate is increased, and she just developed a rash over her arms and face(little itchy bumps). They are happy to arrange access of their home so you may do the additional testing you desire based upon their significant initial water data.

Ex. 6 - Personal Privacy would like to provide the water testing data you have available to EPA so they will put them on their list to survey their water well for additional testing and water replacement. Because Ex. 6 - Personal Privacy said it was fine last night, I am copying Trish Taylor, Superfund Division EPA and Richard Fetzer, On Scene Emergency Response Team EPA.

Thank You,
Rebecca Roter
Brooklyn PA Susquehanna CO
